Integrity - Service - Excellence

Agenda

AFSAC

- **FMS Challenges**
 - **Current IT Environment**
- **AFSAC Methodology**
- **CEMIS & Security Cooperation Information Portal (SCIP) Update**
- **Proposed Concept**
- **Summary**

AF Information Technology Conference

AFSAC

"Future IT systems will enable more **horizontal** communication, from anywhere, while presenting personalized information so each **individual** can make **effective decisions** based on **knowledge, Decision, Action In Time.**

"I left the Air Force with a sense of hope ... and a feeling that we're finally recognizing the importance of IT to our future..."

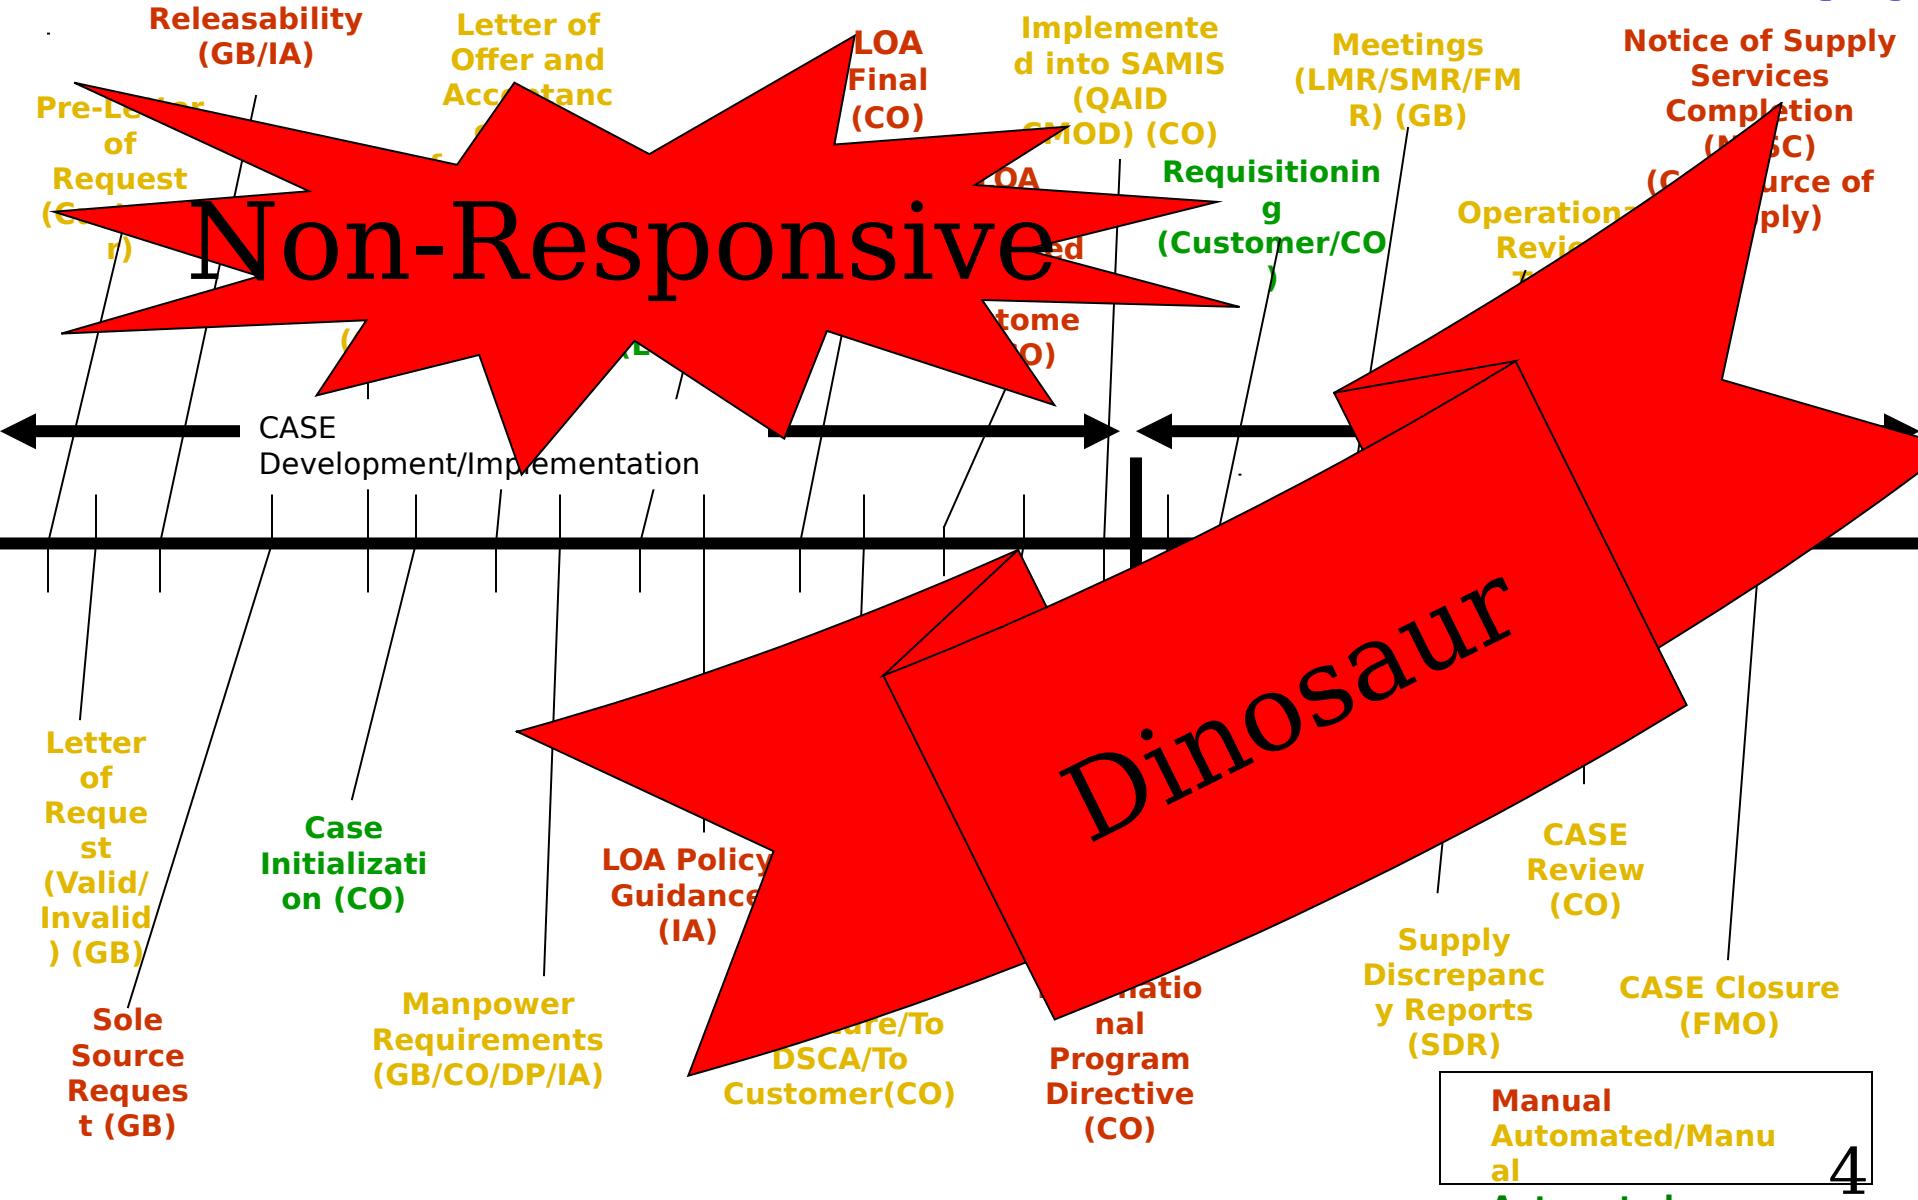

Gen Martin, AFMC/CC

IT Must Enable

Current FMS IT Challenges

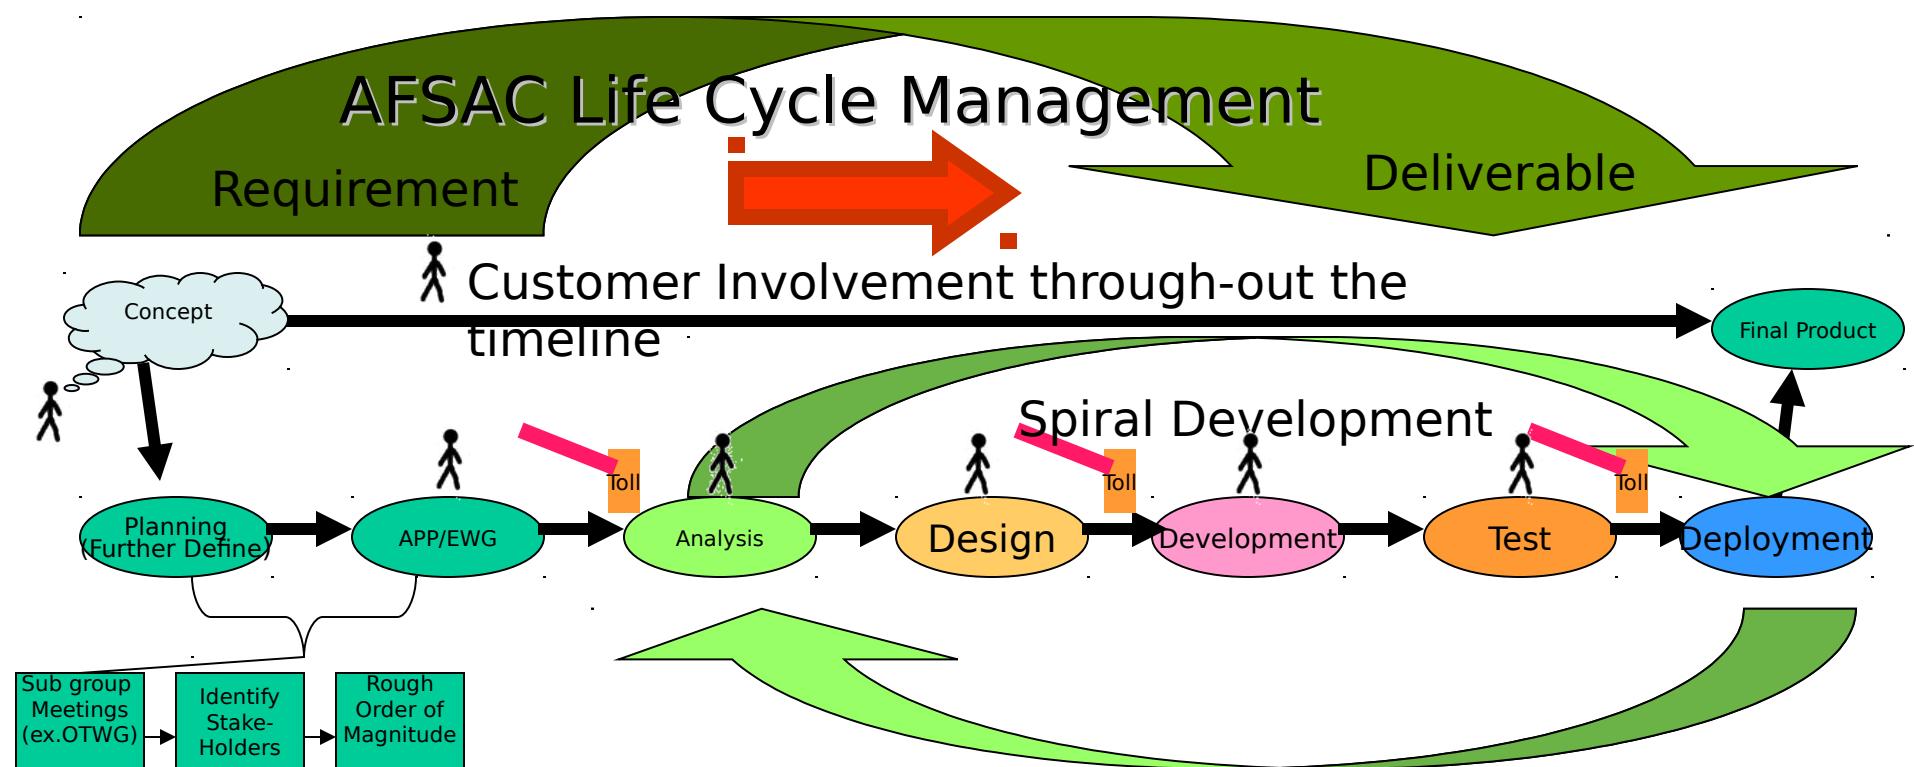

AFSAC

Methodology

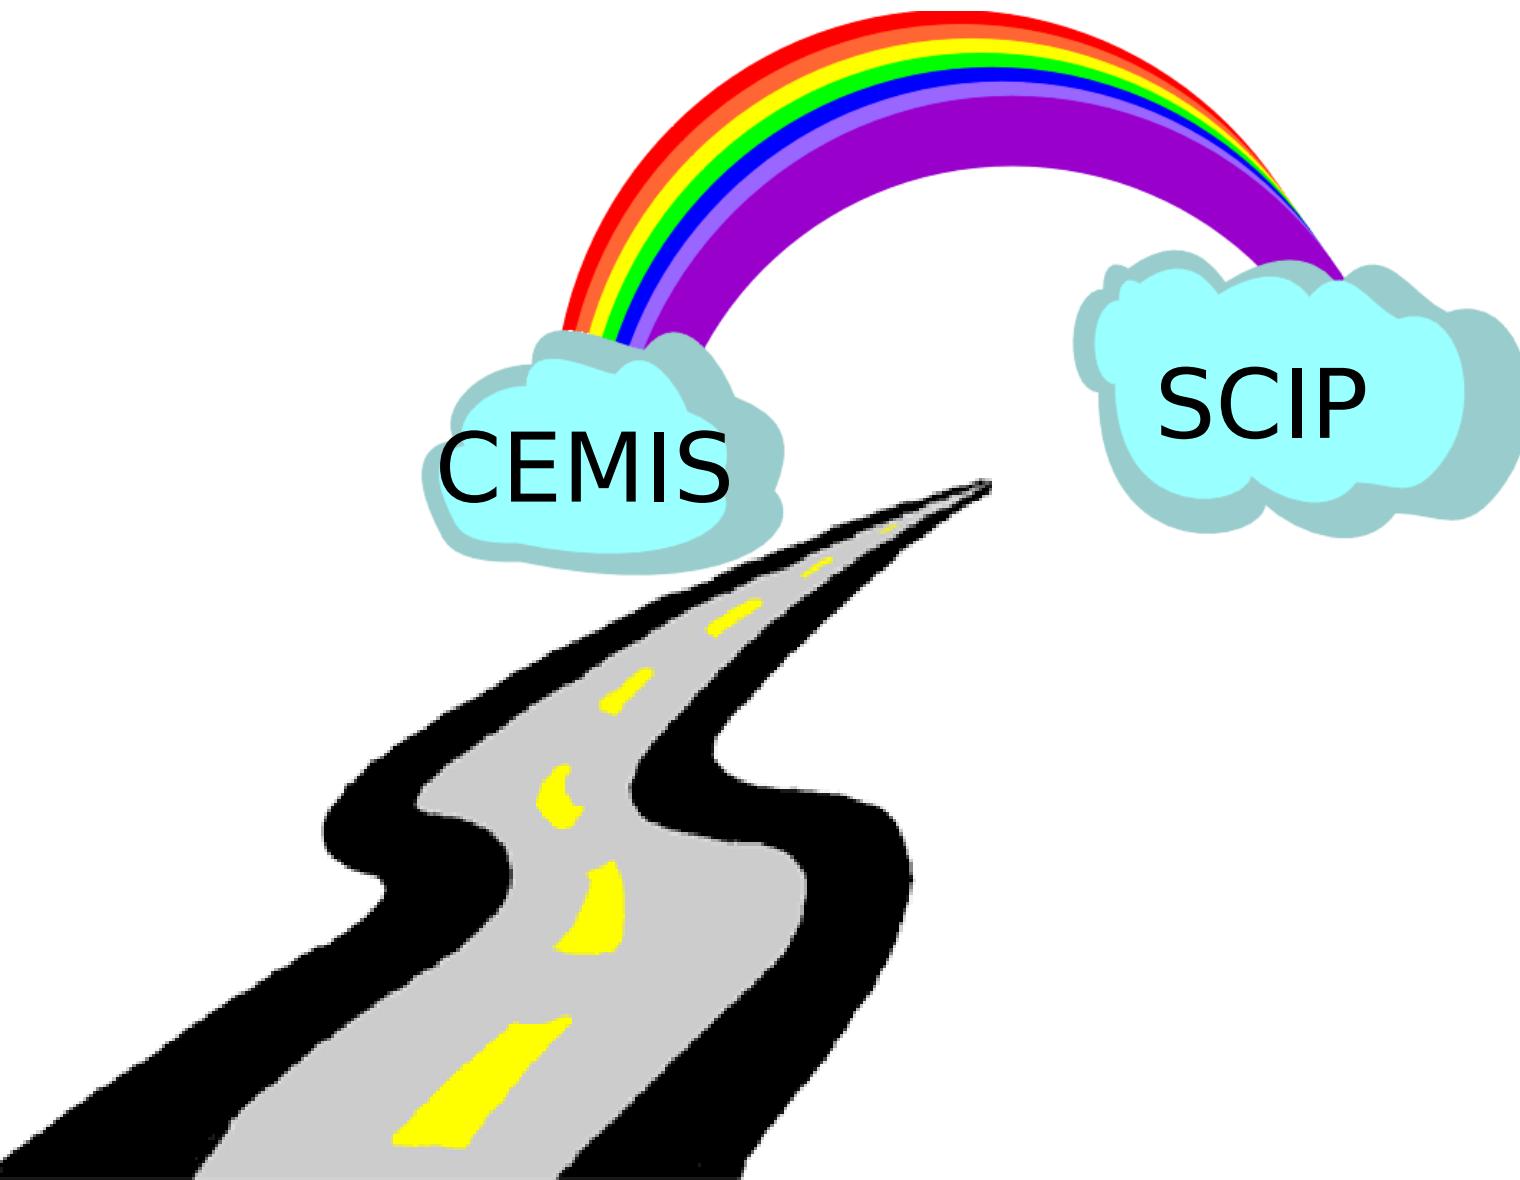

AFSAC

Application Roadmap

AFSAC

CEMIS Objective

AFSAC

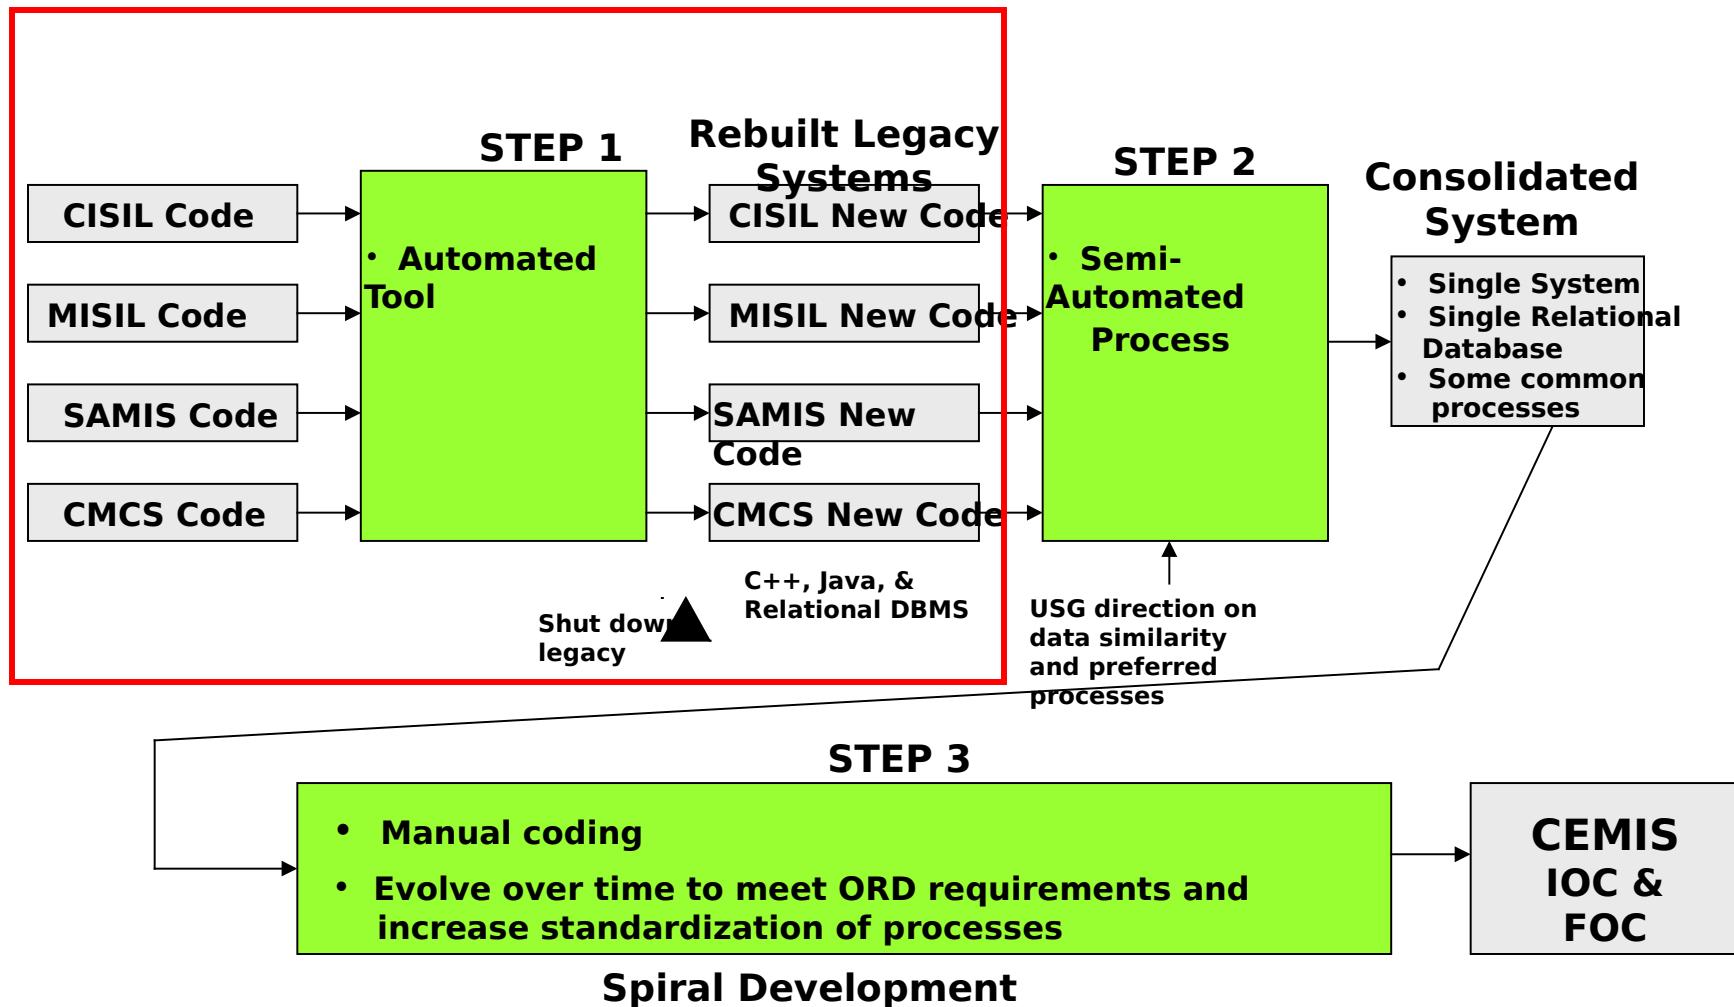

- **DEFENSE SECURITY COOPERATION AGENCY (DSCA) directed replacement**
 - Army(CISIL) initially fielded in 1976
 - Navy (MISL) initially fielded in 1989
 - Air Force initially fielded
 - SAMIS in 1983
 - CMCS in 1989
- **Issue:**
 - RFP not released still on hold due to funding issues

CEMIS Concept

AFSAC

4 to 4 Phase

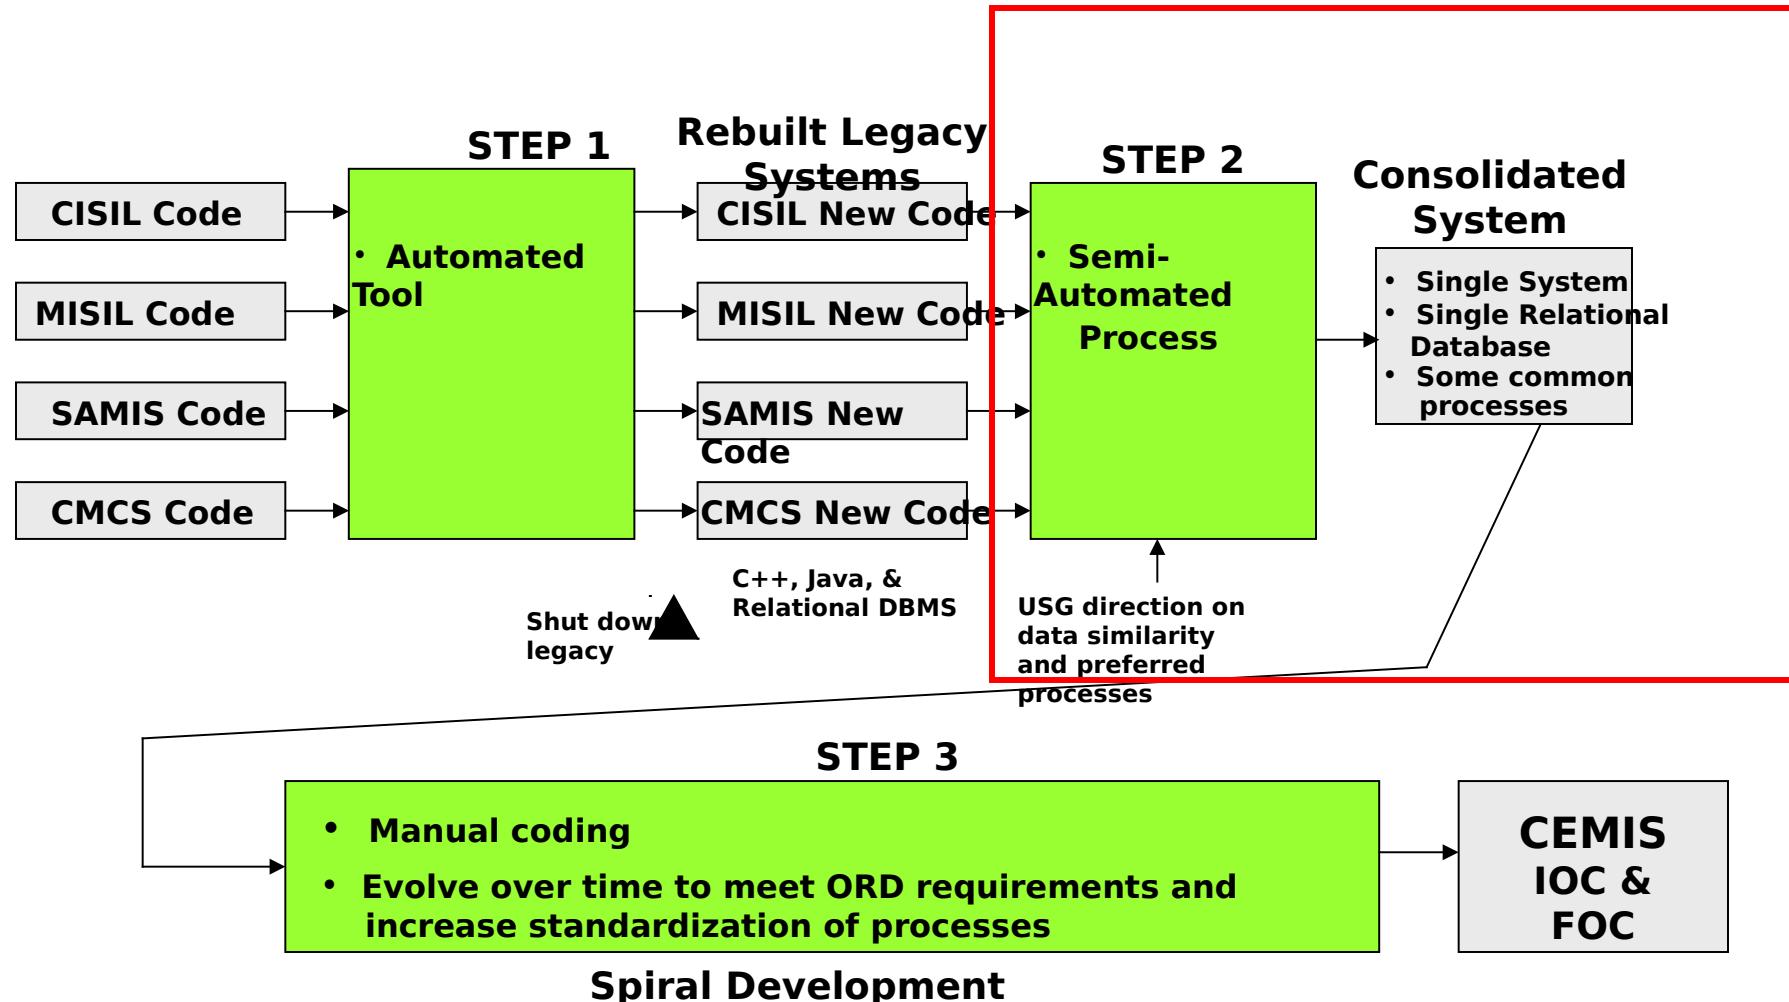

CEMIS Concept

AFSAC

4 to 1 Phase

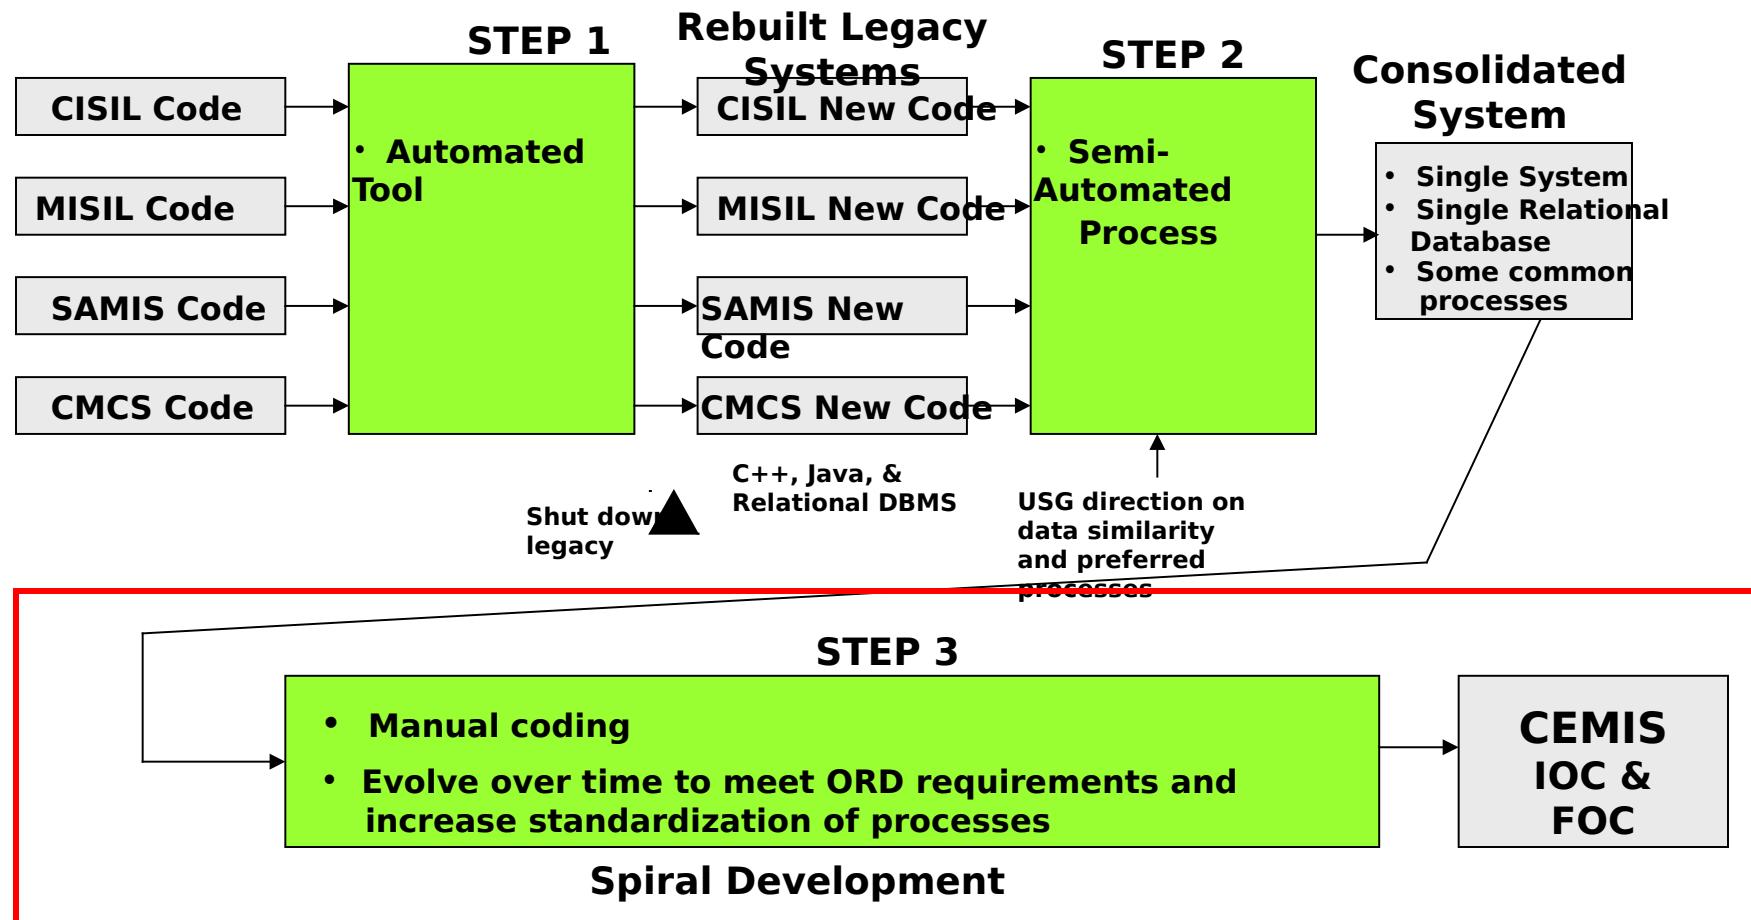

CEMIS Concept

AFSAC

User Requirements Phase

SCIP Original Concept

- **Interim Solution Until CEMIS**
- **Tri-Service View of Information**

However:

- **Delays in DSAMS/CEMIS schedules**
- **Re-emphasis placed on evolving SCIP**

SCIP's Future

AFSAC

Air Force Security Assistance Center
Wright Patterson AFB, Ohio 45433

*International Programs
eBusiness Suite*

USASAC
United States Army Security Assistance Command

- **Migrate MILDEP web sites (AFSAC Online, Navy's E-business & Army's Web site) into SCIP**
 - Single sign on
 - Collaborative development among services
 - Common system architecture
 - Purple Suit Applications
 - Spiral Development of current requirements

SCIP's Future Benefits

AFSAC

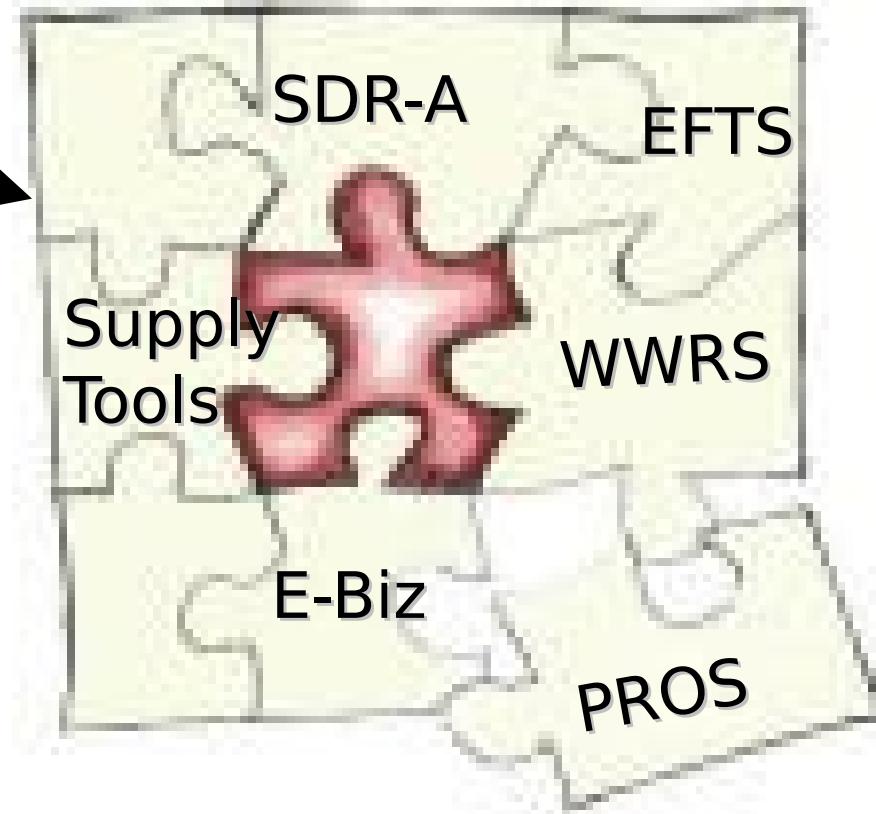

- **SCIP evolving into the online user interface to CEMIS**
- **Manageable spirals**
- **Customers don't need to wait until 4 to 1 phase done**
- **Mitigates risks associated with large development projects**

Proposed SCIP Concept

AFSAC

CEMIS

Architectural planning (Data & Process)

Develop applications in Spirals

- After implementation, turn off functionality in Legacy code

Summary

AFSAC

- **6 month spirals of functionality**
- **Cooperative development**
- **Integrate efforts**
